ⁱ **Recognized Compliant:** The verification given to a Global GreenTag certificate credit statement when the Green Building Rating Tool has formally recognised the Global GreenTag certification services' individual product compliance with the credit, or the Global GreenTag standard, and the certificate meets the minimum individual product credit achievement requirements.

Recognized Evidence: The verification given to a Global GreenTag certificate credit statement when the Green Building Rating Tool has formally recognized the Global GreenTag certification services' individual product compliance with the credit, or the Global GreenTag standard, but the certificate doesn't meet the minimum individual product credit achievement requirements because it requires additional steps of evidence collection and evaluation to determine individual product credit achievement requirements.

Audit Verified Compliant: The verification given to a Global GreenTag certificate credit statement when the certification service conformity requirements outlined in the Global GreenTag International Standard meet the minimum individual product credit achievement requirements of the Green Building Rating Tool, but the Green Building Rating Tool has not yet recognised the certification services' individual product compliance with the credit.
